

Dear *[Official Greeting]* -

As your constituent and a supporter of Essex County Habitat for Humanity, I ask that you help bring more affordable housing and affordable homeownership to Essex County, Massachusetts.

It is imperative that we make progress on tackling the affordable housing issue that we have been facing for far too long. Bold action is needed now to address the increasing cost of housing and to support the residential needs of low-income individuals and families.

As your constituent, I am urging you to help us move closer to a world where everyone has a decent and affordable place to call home through policy solutions aimed at:

- Increasing supply and preservation of affordable homes;
- Equitably increasing access to credit;
- Optimizing land use for affordable homes; and
- Ensuring access to communities of opportunity.

Every family deserves a chance to thrive. Thank you for your consideration of policy solutions that address housing affordability and I hope the issue becomes a top priority this session.

Thank you for your time.
